DETAILED ACTION

Drawings

1. The drawings were received on 10/17/05. These drawings are not acceptable.
2. The drawings are objected to because all diagrammatic blocks and features, such as elements 10-18 in Figure 1 are required to be distinctly labeled to indicate contents or function with legends (37 C.F.R. 1.83(a), 1.84(o)) since they are necessary for understanding of the drawing. Correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Anthony et al (6,559,769) for the same reasons as set forth in Section 8 of the last office action, dated 7/15/05.

Response to Arguments

5. Applicant's arguments filed 10/17/05 have been fully considered but they are not persuasive. Applicant asserts on pages 10-12 of the Remarks that Anthony et al fails to disclose an existing telephone system on a mobile platform. However, Figure 7 and columns 9-10 of Anthony et al discloses the concept of such common communication

technique of utilizing a telephone system to transmit the data stream output to the monitoring station (e.g. col. 9, line 65 - col. 10, line 20).

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

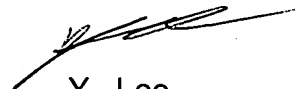

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
